

NYSERDA Seeks Proposals for Alternative Energy

The New York State Energy Research and Development Authority (NYSERDA) recently announced that they will be accepting proposals for high-value photovoltaic, wind, and hybrid application systems. Proposals that indicate benefits and value of alternative energy sources will be considered.

In addition, applications should indicate how it addresses NYSERDA's New York Energy Smart Program, whose objectives include serving user needs where grid electricity is limited or not available, or developing wind systems for local use or grid support.

Each proposal is eligible for up to \$500,000 in funding, and is based on a 50 percent matching grants program. Pre-proposal submissions are due by May 24, while all proposals are due in by June 28.

Applicants should contact John Martin, NYSERDA, phone 518-862-1090 extension 3265, e-mail jpm@nyserda.org before submitting a proposal. Copies of the applications are available by contacting Jane Powers (request PON No. 524-00), e-mail jap@nyserda.org, fax 518-862-1091, website <http://www.nyserda.org>.
